

FLUVAL

NEW

BIO-FX

EXTRA LARGE 5L
FORMAT

BIO-FX is a premium biological media designed for use with canister filters and sumps of all sizes. Featuring a deep pore structure with interconnected micro-tunnels, BIO-FX offers a vast surface area where billions of beneficial nitrifying bacteria can thrive.

Featuring

DEEP PORE STRUCTURE

- Interconnected micro-tunnels
- Maximum surface area
- Optimal beneficial bacteria growth

HIGH PERFORMANCE

PREMIUM BIOLOGICAL FILTER MEDIA

MORE Surface Area = **MORE** Beneficial Bacteria = **HEALTHIER** Aquarium

FLUVAL

NEW

BIO-FX

XL canister filters

Canister filters

Sump filtration filters

SUPERIOR EFFICIENCY

The three-dimensional linked cavities permit water to flow freely and evenly through the BIO-FX nodes, discouraging blockages while prolonging contact time for superior and effective biological filtration.

PROMOTES A HEALTHY AQUARIUM

Supports an active nitrogen cycle: allows for the establishment of a high concentration of nitrifying bacteria to reduce ammonia and nitrite quickly and efficiently for a healthier aquarium.

ADDITIONAL FEATURES

- **Safe, Inert Ceramic Material:**
Will not alter the water's chemical composition
- **Durable and Robust:** Does not break down easily

Covers up to 5 L of extra large media volume

Actual size
1.8 cm x 2 cm

Usage: For most aquariums, 1 filter basket layer of BIO-FX is adequate. For higher bio loads, additional BIO-FX can be used.
